Prices

Title	Description	Price
Trellix Endpoint Security (Essentials/Core/Enterprise) - Hybrid or Cloud	The Trellix Endpoint Security Suite is a unified, multi-layered security platform that consolidates prevention, detection, investigation, and response into a single software agent that leverage AI to reduce analyst workload.	From £5 Per Device Per Year
Trellix Network Detection and Response (Essentials/Core/Enterprise) - Hybrid or Cloud	The Trellix Network Detection and Response (NDR) platform provides unified visibility and automated threat detection across hybrid cloud, on-premises, and encrypted network traffic using AI-driven analytics.	POA - Priced on Gbps bandwidth
Trellix Data Security (DLP/Endpoint/Database/Network)	Trellix Data Security unifies endpoint, network, and database protection. Discover automates data classification, while robust encryption and FRP (File and Removable Media Protection) secure information on shared folders and removable devices.	From £5 Per Device Per Year
Trellix Email Security (SaaS/On-prem/Virtual)	Trellix Email Security provides comprehensive protection across SaaS and on-premises deployments, using advanced sandboxing to neutralize sophisticated threats that standard security layers often miss.	From £26 per User per Year
Trellix Helix (XDR/SecOps) with Hyperautomation	Trellix Helix is a cloud-native security operations platform that integrates disparate security tools to provide unified visibility, automated detection, and coordinated incident response it uses no-code, drag-and-drop workflows to automate complex threat detection and incident response tasks.	From £37 per User Per year
Trellix Intelligent Virtual Engine (Sandbox) - SaaS/On-prem/Virtual	Trellix IVX is a high-performance, signature-less sandboxing engine across SaaS, on-premises and virtual deployments, that detonates suspicious files in isolated virtual environments to identify and block advanced zero-day malware and threats.	From £31 per User per Year
Trellix Threat Intelligence (Insights, TIE, Atlas, pGTI)	Trellix Threat Intelligence provides a portfolio of various solutions that combines global sensor data with local environmental context to predict, identify, and instantly neutralise emerging cyber threats.	From £10 per Device Per Year
Trellix Intelligence as a Service (INTaaS)	Trellix Intelligence-as-a-Service (INTaaS) provides on-demand access to elite threat experts who deliver tailored research and actionable intelligence to neutralise sophisticated adversaries.	POA based on Service Required
Trellix MDR for SecOps (Endpoint or Full Ecosystem)	Trellix MDR for SecOps provides a 24/7 expert-led service that monitors, detects, and neutralises threats across an organisations entire digital ecosystem by	From £36 per User per Year

	combining advanced automation with human-led forensic investigation.	

Every effort has been made to set out the methodology and structure of the prices. In some instances, the price can only be estimated based on the capacity, for example, gigabytes of consumption, or use, for which we request that Integrity360 is contacted for more information. Please also refer to the enclosed product documentation and the Integrity360 terms and conditions of service.
