

Managed Security Awareness Service

Turning your people into your strongest defence

The challenge

Human security is one of the biggest challenges for organisations, with people being the most common attack vector and playing a role in the majority of breaches. Sustaining awareness and vigilance is difficult, and despite advanced tools, it places a heavy burden on security teams. Integrity360's Managed Security Awareness Service removes that pressure by delivering continuous, best-practice training and realistic testing, supported by fresh, relevant content that keeps pace with evolving threats.

Our service

Integrity360's Managed Security Awareness Service delivers a complete, remotely managed programme that changes employee behaviour and measurably reduces risk.

Key features

- Interactive, scenario-based training in multiple languages
- Ongoing reinforcement to keep security front of mind
- Phishing, vishing & smishing simulations updated weekly
- AD integration & platform management handled by us
- Campaigns tailored to your brand and culture
- Executive-ready reports and risk scores to track progress

The benefits

- **Lower risk:** Reduce breaches caused by human error
- **Save time:** Offload campaign planning, delivery & reporting
- **Reach everyone:** Inclusive training across roles and geographies
- **Prove impact:** Clear metrics and dashboards for executives and auditors
- **Close the loop:** Retrain high-risk users automatically

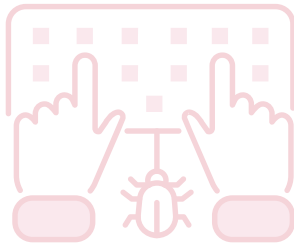

How it works

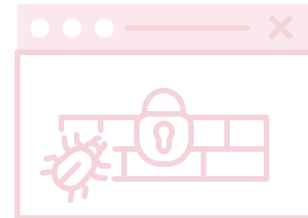

We deliver a continuous cycle of training to ensure measurable improvements:

- **Baseline** – Assess awareness with phishing & proficiency testing
- **Train** – Deliver engaging, tailored modules
- **Test** – Run ongoing simulations to validate learning
- **Target** – Provide reinforcement training where needed most

Stay in control with clear, actionable insight:

- Phishing campaign reports (clicks, replies, attachments, data entry, reporting rates)
- Training reports (starts, completions, policy acknowledgements)
- Risk scores at user, group, and organisation level
- Trends and executive summary dashboards

Why choose Integrity360?

- Greatest level of technical certifications and capability in the market for the supported technology
- Strongest vendor partnerships and support arrangements
- Security Operation Centres (SOC) located in Ireland, Italy, Sweden, Spain, Bulgaria and South Africa
- Rapid response and competitive service levels
- Specialists in Cyber Security
- Understanding across your entire estate
