Ensuring client satisfaction and success is achieved and maintained across the partnership lifecycle are the overriding goals and focus of our service and support teams. This applies across the full customer and project lifecycle from project initiation and going live, to institution-wide adoption and onwards.

A key element to achieving the right outcome is ensuring a successful implementation of PebblePad. Starting with a strong onboarding process, this includes installing and integrating the platform, orientating and training users, and consulting and building learning resources and workflows.

Basic implementation & onboarding fee: £12,000

All prices exclude VAT.
