- ✓ Highlights areas for investment to shape Service Improvement Programme (SIP)
- ✓ Validates progress to date of any in-flight adoption projects
- ✓ Differs from internal/ external audits; its holistic across the estate

OVERVIEW

Finyx's Cloud Maturity Assessment helps you review the current or proposed cloud position from a Cost, Security, Operating Excellence, Sustainability, Reliability and Performance perspective using standard frameworks to identify areas of improvement. It provides Technology leaders with an objective actionable plan to help make the most of your cloud investment.

SERVICE OVERVIEW

Finyx studied various Cloud tools to create a vendor-agnostic methodology that determines where organisations fall short of achieving the expected benefits of the Cloud. Using the Open Alliance for Cloud Adoption Maturity Assessment and AWS/Azure Well Architected Frameworks, Finyx tailor a set of questions to assess the current position of organisation against a set target state. Finyx interview key stakeholders to evidence indicative and target maturity across key Cloud domains that include DevOps, Governance, Finance and Culture among others.

On conclusion of the assessment, Finyx compile an in depth findings report with gap / risk assessment of current cloud position, actionable improvements and a defined target state with a prioritised plan for remediation.

CHARGING MODEL

Finyx offer a variety of charging mechanisms to suit the client's situation:

- Unit Price / Time & Materials
- Fixed Price
- Performance

ABOUT US

INSIGHT

Through many years of developing solutions for our clients we know "what good feels like" and we have the insight to assist them in getting there.

EXPERIENCE

Finyx has a broad range of capabilities and can assist with all aspects of IT Transformation; from defining the strategy and roadmap, through describing and procuring required solutions, to providing a project office and overseeing service migrations.

EXECUTION

Finyx are active in both the Public and Private sectors; we have a history of building long-standing client relationships and returning to support them on further engagements.
