Backup as a Service (BaaS)

Redcentric Backup as a Service (BaaS) is a cost-effective, cloud based, data protection and disaster recovery solution that supports a wide array applications, data types, and workloads, including endpoints. In addition to its comprehensive data protection capabilities the solution can also provide vulnerability scanning, patch management, remote desktop, and drive health reports as well as next generation AI based protection against malware. All this is achieved through a unified easy to use customer portal and interfaces.

Backup as a Service is compatible with Cyber Security Services, Disaster Recovery as a Service, Infrastructure Recovery, Physical Workplace, Redcentric Cloud, Storage as a Service are also available from G-Cloud.

Pricing

All prices exclude VAT.

This Service is subject to a Call-Off Contract Period of 36 months and the Minimum Period of Service of 12 months.

Lot 2 discounts will be applied to the prices set out in this Price Card and calculated based on the total annual Call-Off Contract value – see Table 1 for details.

over £5,000,000	10%

Backup as a Service

Billing for BaaS has three distinct parts:

1. Professional Services

Exit Charges - Data extraction as part of customer offboarding can be optionally achieved via entire service transfer to a new provider or via the provision of extracted data on portable media.

Given the nature and variability of customer offboarding, these activities are delivered as Professional Services, see Table 2 for details.

2. Management

BaaS can be provisioned as either Self-Service (see Table 3 & 4) or Managed or Premium options (see Table 5 & 6).

The Managed and Premium options provide for the monitoring, and remediation of backup failures on behalf of the customer, as well as restoration assistance, advice, and recommendations.

3. Subscriptions

There are two overarching models for purchase, both of which are usage-based models; customers are charged for the quantities consumed each month.

Gigabytes Consumed - A cost for backup storage will be charged, regardless of any endpoints and workloads protected.

No. of Workloads - In a workload model, charges apply for both agent type/count as well as the cost of backup storage.

Professional Services

Table 2 - Professional Services are available and will be provided in accordance with the Buyer's specific requirements. Pricing will be agreed by the number of Professional Services days required and the applicable consultant roles.
