Managed Firewall Service

Managed Firewall Service The service is delivered on virtual firewalls on a shared platform or on one or more dedicated hardware firewall appliances. The firewalls control traffic between devices on different networks and provide perimeter protection. The firewall is configured by our staff to meet customer's requirements. Firewalls are monitored for alerts.

Managed Firewall Service is compatible with Network as a Service, DDoS Mitigation Service, Meraki Connectivity and Security Service, Managed SD-WAN Service, Two Factor Authentication Service also available on G-Cloud.

The Redcentric Managed Firewall Service offers a choice of virtual firewalls or dedicated appliance(s), and Customers can select from three service options:

- Standard
- Advanced
- Static-Configuration

The **Standard** service delivers a high level of perimeter security based on Layer-7 application-aware firewalling performing Network Address Translation with a level of Denial-of-Service capability (e.g., mitigate against sync packet flooding).

The **Advanced** service builds on the standard service by additionally offering three Unified Threat Management functions: Anti-virus, Web-filtering, and Intrusion detection. Please see the service definition for further details.

The **Static-Configuration** service is particularly cost-effective and suitable for environments where the ruleset is dictated by a governing-body and rarely changes (e.g. where firewall protects interface to certain public-sector networks). UTM functionality is not included. To minimise costs and service charges, fewer change-requests are accepted for the static configuration option.

Redcentric recommends, as a minimum, the standard service for all Customers using the firewall to protect their Enterprise network edge.

Pricing

All prices exclude VAT.

This Service is subject to a Call-Off Period of 36 months and a Minimum Period of Service of 12 months.

Lot 2 discounts will be applied to the prices set out in this Price Card and calculated based on the total annual Call-Off Contract value – see Table 1 for details.

Discounts

Table 1 – Discounts.

Annual Call-Off Value	Discount %
less than £250,000	2%
between £250,001 and £500,000	4%
between £500,001 and £1,000,000	5%
between £1,000,001 and £2,500,000	6%
between £2,500,001 and £5,000,000	8%
over £5,000,000	10%

Fortinet Firewall Devices & Support

Fortinet Firewall Devices are available with a discount of 35% from the Fortinet List Price.

Fortinet Firewall Support and Licencing is available with a discount of 15% from Fortinet List Price.

Creation and administration of additional category lists is chargeable based on the Professional Services rates detailed below and based on customer requirements.

Professional Services

Table 3 - Professional Services rates for additional design, configuration, and installation are detailed below.

Professional Service	One-Off Charge Per Day
Project Manager	£625.00
Senior Project Manager	£750.00
Solutions Architect	£700.00
Senior Solutions Architect	£950.00
Engineering Time Remote	£390.00
Engineering Time Onsite	£475.00
Engineering Time - Out of Hours	£95.00
Engineering Time - Weekend	£180.00

Standard Deliverables

- Service Setup
- Service Configuration

Ending the contract without reason

If the Customer terminates the Call-Off Contract, all or part of it, before the Call-Off Contract end date, as set out in paragraph 13.2.2 of the General Terms, the Customer must give the Supplier no less than 90 days' notice.

The Buyer must promptly pay all outstanding Charges incurred to the Supplier and must pay the Supplier reasonable committed and unavoidable losses as set out in clause 13.5.3 of the General Terms. The Supplier's committed costs over the Contract Period are:

- in Year 1, 100% of any monthly recurring Charges payable by the Buyer; and
- in the remainder of the Contract Period, 30% of any monthly recurring Charges payable by the Buyer.
