Wireless Guest Access Analytics Service

Redcentric resells, integrates, and supports the Purple Service. The Purple Service assists with the compliance implications associated with offering Guest Internet access. The extremely rich insight into visitor demographic and behaviour as well as the ability to send focused marketing communication to them can provide a return for the investment required to build and operate the underlying connectivity and wireless infrastructure.

Wireless Guest Access is compatible with Redcentric Managed LAN Switch Service, Managed Wireless LAN Service, and Meraki Connectivity and Security Service also available from G-Cloud.

Pricing

All prices exclude VAT.

This Service is subject to a Call-Off Contract Period of 36 months and a Minimum Period of Service of 12 months.

Lot 2 discounts will be applied to the prices set out in this Price Card and calculated based on the total annual Call-Off Contract value – see Table 1 for details.
