DDoS Mitigation Service

Distributed Denial of Service (DDoS) attacks are characterised by the delivery of very large volumes of traffic to the targeted system, overwhelming infrastructure and making it inaccessible. The DDoS Mitigation Service addresses this by filtering out attack traffic while sending as much legitimate traffic to the Customer's systems as possible.

DDoS Mitigation Service is compatible with Access as a Service. Managed Firewall Service, Meraki Connectivity and Security Service. Managed SD WAN Service.

Pricing

All prices exclude VAT.

This Service is subject to a Call-Off Contract Period of 36 months and a Minimum Period of Service of 12 months.

Lot 2 discounts will be applied to the prices set out in this Price Card and calculated based on the total annual Call-Off Contract value – see Table 1 for details.
