Database as a Service (DBaaS)

The Redcentric Database as a Service (DBaaS) is an ITIL aligned standard, repeatable database infrastructure, provisioning, and administration service for SQL Server database management systems.

This Service is priced on a per instance basis for the service element and consumption and licensing costs for infrastructure and provisioning. The product is delivered remotely using standard processes, tools, and automation.

Pricing

All prices exclude VAT.

This Service is subject to a Call-Off Contract Period of 36 months and a Minimum Period of Service of 12 months.

Discounts

Redcentric Solutions Ltd Lot 1 Framework Discount is 21% and this will be applied to the prices set out in this Price Card.

Professional Services

At the commencement of the service the any additional activities such as migration to our service from an existing solution can be supported by Redcentric via our professional services capabilities. These would be commissioned and priced independently of the service.

At the end of the contract all resources and associated data will be decommissioned. There is no additional charge for the decommissioning. Redcentric can support activities such as migration to a new solution through our professional service capabilities. See Table 2 for details.
