

Due Diligence

Introduction

Effective **architecture and design** are critical to the successful delivery of **business change**, **cloud adoption** and **digital transformation** across the public sector. Mosaic Island provides a suite of **design-led consulting services** that support public sector organisations in planning, shaping and delivering complex change in a controlled, proportionate and outcome-focused manner.

Our services support organisations across the full change lifecycle, from **strategy and enterprise architecture** through **enterprise solution architecture**, **solution architecture** and **data architecture**, to **delivery management**, **assurance** and **recovery**. We help ensure that architectural decisions, delivery governance and operating models are aligned to organisational objectives, statutory obligations and service outcomes.

Our approach is collaborative, pragmatic and flexible. We work *with you, not to you*, tailoring our services to organisational context, maturity and delivery environment. Services can be engaged individually or combined to provide end-to-end support across **cloud migration**, **digital service delivery**, **business change** and **large-scale technology programmes**.

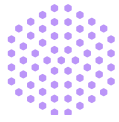

Our services are grounded in extensive real-world experience across the private and public sectors, and across a range of delivery models including **agile**, **waterfall** and **hybrid**. We adapt our approach to support effective governance, assurance and value for money, helping organisations manage risk while delivering sustainable change.

Our focus is on practical delivery. We support informed decision-making, reduce delivery risk and help organisations design and deliver solutions that are fit for purpose, secure and capable of evolving over time.

Service Overview

Mosaic Island's **Due Diligence** service provides an independent, structured assessment of an organisation's **business**, **technology** and **architecture landscape** ahead of **merger**, **acquisition**, **investment** or **significant organisational change**. The service helps organisations understand risk, validate assumptions and make informed decisions with confidence.

We review existing business and technical architecture artefacts to assess capability, maturity and risk, including readiness for **cloud adoption**, **digital transformation** and future change. The service provides clarity on what is in place today and the implications for future delivery.

Mosaic Island

Our Approach

Our approach is objective, evidence-based and pragmatic. We work *with you, not to you*, engaging stakeholders as required while maintaining independence in our assessment.

Due diligence is **capability driven**, assessing how well business and technology capabilities support current and future objectives. We identify key risks, gaps and dependencies, highlighting **red flags** and areas requiring further investigation or mitigation.

Findings are presented clearly, with practical options and recommendations rather than abstract assessments.

Strategic Focus Areas

The Due Diligence service typically focuses on:

- **Business and technology architecture assessment**
- **Enterprise and solution architecture maturity**
- **Cloud readiness and digital capability**
- **Risk identification and mitigation**
- **Capability alignment between business and IT**
- **Operating model and delivery readiness**

These focus areas ensure decision-makers have a clear, balanced view of opportunity and risk.

Service Features

The Due Diligence service may include:

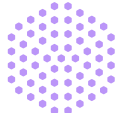

- Independent assessment by experienced **subject matter experts**
- Review of business, enterprise, solution and data architecture artefacts
- **Capability-based analysis** supporting business and IT alignment
- Identification of **risks, issues** and **red flags**
- Assessment of innovation, sustainability and technical viability
- Clear definition of scope and assessment boundaries
- Practical findings and recommendations to support decision-making

Scope and depth are agreed per engagement.

Service Benefits

This service enables organisations to:

- Make informed, **evidence-based decisions**
- **Understand** financial, technical and **delivery risks**

Mosaic Island

- Gain an **objective view** of organisational capability and maturity
- **Identify key risks** and mitigation options early
- **Highlight skill gaps** and operating model concerns
- **Improve confidence** ahead of merger, acquisition or major change

Typical Outcomes

- A **clear assessment** of current business and technology **capability**
- **Identified risks, gaps and dependencies**
- **Validated** or challenged **assumptions** about the organisation or asset
- **Practical recommendations** to support next steps
- **Increased confidence** in investment or change decisions

Why Mosaic Island

Mosaic Island is **independent, technology agnostic** and experienced in delivering due diligence across complex **cloud, digital** and **technology environments**. We combine deep architecture expertise with a pragmatic approach focused on clarity, risk reduction and informed decision-making.
