# 1. Valiantys Professional Services

Valiantys professional services are provided on a bespoke basis and are scoped to meet the specific requirements of each customer. Pricing is dependent on factors such as the scope of services required, delivery approach, duration, complexity and resource profile. Customers are encouraged to contact Valiantys to discuss their requirements, following which a tailored proposal and price will be provided in line with G-Cloud 15 terms and conditions.

Please see: <https://www.valiantys.com/> for a full overview of our current offerings and capabilities

| Profile                   | Daily Price<br>GBP (ex<br>VAT) | Role Summary and Core Capabilities                                                                                                                                                            |
|---------------------------|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Developer                 | 1000                           | Builds, configures and customises Atlassian solutions and Marketplace apps. Delivers integrations, automation, scripting and technical enhancements aligned to defined designs and standards. |
| Consultant                | 1150                           | Delivers core Atlassian consultancy including configuration, administration, requirements capture and user enablement. Supports project delivery and best practice adoption.                  |
| Senior<br>Consultant      | 1300                           | Leads workstreams and complex configurations. Provides solution design input, stakeholder engagement and quality assurance across delivery activities.                                        |
| Principal<br>Consultant   | 1500                           | Owns solution design and delivery outcomes. Advises on operating models, governance, scaling and complex transformations across Atlassian platforms.                                          |
| SAFe<br>Consultant        | 1500                           | Provides SAFe coaching and implementation services. Supports agile transformation, portfolio alignment and enterprise scale ways of working using Atlassian tooling.                          |
| Solution<br>Architect     | 1500                           | Designs end to end Atlassian architectures. Ensures solutions are scalable, secure and aligned to enterprise and integration standards.                                                       |
| Regional<br>Practice Lead | 1500                           | Provides senior assurance, governance and thought leadership. Oversees delivery quality and alignment to regional practice standards.                                                         |
| Global<br>Practice Lead   | 1800                           | Defines global service strategy and standards. Provides executive advisory support and assurance for large scale or complex engagements.                                                      |
| Project<br>Manager        | 1250                           | Manages delivery governance, planning, risk and dependencies. Ensures projects are delivered on time, to scope and within budget.                                                             |
| Project<br>Director       | 1500                           | Provides senior delivery oversight and commercial accountability. Manages complex programmes and senior stakeholder relationships.                                                            |

| Profile                 | Daily Price<br>GBP (ex<br>VAT) | Role Summary and Core Capabilities                                                                                                  |
|-------------------------|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| TX Consultant           | 1400                           | Provides technology focused consultancy with emphasis on architecture, integrations and advanced platform capabilities.             |
| TX Senior Consultant    | 1550                           | Leads complex technical delivery and solution design. Acts as technical authority across engagements.                               |
| TX Principal Consultant | 1700                           | Owens technical strategy and architecture. Provides assurance, complex design leadership and enterprise level guidance.             |
| TX PM                   | 1600                           | Manages delivery of technically complex programmes with strong dependency, risk and architectural oversight.                        |
| TX Consulting Director  | 2300                           | Provides executive technical leadership, strategic advisory and assurance for large scale or mission critical Atlassian programmes. |

## 2. Valiantys Training Services

---

Valiantys training services are provided on a flexible and tailored basis to reflect the specific needs of each customer. Pricing is dependent on factors such as the training objectives, audience size, delivery format, duration and level of customisation required. Customers are encouraged to contact Valiantys to discuss their training requirements, following which a tailored training approach and price will be provided in line with G-Cloud 15 terms and conditions.

| Profile                | Daily Price<br>GBP (ex VAT) | Role Summary and Core Capabilities                                                                                                    |
|------------------------|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Training Private       | 2500                        | Delivers instructor led private training tailored to client needs. Covers Atlassian tools, ways of working and role based enablement. |
| Training Public        | 800                         | Delivers scheduled public classroom training using standardised courseware and materials.                                             |
| Training Public Remote | 600                         | Delivers remote public training sessions using virtual collaboration and learning platforms.                                          |

| Total Care Premium 60   | Annual    |              |              | 60            |

## 4. Atlassian Platform Licensing

### 4.1 Jira Standard

We offer a la carte pricing for cloud. Your subscription starts with Jira, and you can add additional products and apps from the Discover new product page in site administration or the [Explore apps for Atlassian products | Atlassian Marketplace](#)

- **Monthly pricing is progressive:** We offer volume discounts as you add more seats. Each user's unit price is based on the pricing rate in which the user falls. See our [Find the Perfect Plan: Atlassian Cloud Calculator | Atlassian](#) for details.
- **Maximum Quantity Billing (MQB):** For monthly subscriptions—including Jira, Confluence, Jira Service Management, and Marketplace apps—your bill is based on the highest number of seats (“maximum quantity”) assigned to each product at any point during your billing cycle. If you add seats mid-cycle, you’ll be charged a prorated amount for those seats for the remainder of the month. Removing seats mid-cycle does not reduce your bill for that period; those seats become available for reassignment until the next billing cycle.

For more details on how MQB works and how it impacts your bill, see the [Maximum Quantity Billing | Atlassian](#)

#### Monthly Pricing:

| <a href="#">Jira</a> |                 |
|----------------------|-----------------|
| Number of users      | Price per month |
| 1 - 100              | USD 9.05 /user  |
| 101 - 250            | USD 7.65 /user  |
| 251 - 1,000          | USD 6.40 /user  |
| 1,001 - 2,500        | USD 5.80 /user  |
| 2,501 - 5,000        | USD 5.40 /user  |
| 5,001 - 7,500        | USD 5.10 /user  |

|                 |                |
|-----------------|----------------|
| 7,501 - 10,000  | USD 4.80 /user |
| 10,001 - 15,000 | USD 4.15 /user |
| 15,001 - 20,000 | USD 3.80 /user |
| 20,001 - 25,000 | USD 3.55 /user |
| 25,001 - 30,000 | USD 3.35 /user |
| 30,001 - 35,000 | USD 2.65 /user |
| 35,001 - 40,000 | USD 2.55 /user |
| 40,001 - 45,000 | USD 2.50 /user |
| 45,001 - 50,000 | USD 2.45 /user |
| 50,001 - 60,000 | USD 2.45 /user |
| 60,001 - 70,000 | USD 2.45 /user |
| 70,001 - 80,000 | USD 2.45 /user |
| 80,001 - 90,000 | USD 2.45 /user |
| 90,001 +        | USD 2.45 /user |

\*Cloud is offered at 75% off for [eligible Community customers](#), and 50% off for [eligible Academic customers](#).

### Annual Pricing:

| <a href="#">Jira</a> |              |
|----------------------|--------------|
| Number of users      | Annual price |
| 1 - 10               | USD 900      |
| 11 - 15              | USD 1,350    |
| 16 - 25              | USD 2,250    |
| 26 - 50              | USD 4,550    |
| 51 - 100             | USD 9,050    |
| 101 - 200            | USD 16,500   |
| 201 - 300            | USD 23,500   |
| 301 - 400            | USD 30,000   |
| 401 - 500            | USD 36,500   |
| 501 - 600            | USD 43,000   |
| 601 - 800            | USD 55,500   |
| 801 - 1,000          | USD 68,500   |
| 1,001 - 1,200        | USD 80,000   |

|               |             |
|---------------|-------------|
| 1,201 - 1,400 | USD 91,500  |
| 1,401 - 1,600 | USD 103,500 |
| 1,601 - 1,800 | USD 115,000 |
| 1,801 - 2,000 | USD 126,500 |

## 5. Pricing notes and assumptions

---

All prices are in GBP and exclude VAT. All prices are subject to increase by Atlassian and will be charged at current market rate.
