

Scrumconnect

Service description

Identity Assurance and Access Management

SCRUMCONNECT
FORWARD, AS ONE.

**At Scrumconnect, we deliver
user-centric digital solutions
that transform public services.**

**Our team of expert consultants
excels in full lifecycle
development, turning complex
challenges into actionable
results that drive real impact.**

Our mission is to make digital services and products easy to use for our clients and their customers, creating great user experiences for everyone.

Our Identity Assurance and Access Management service provides robust security solutions tailored to protect and manage user identities across various platforms. This comprehensive service ensures that only authorized users can access critical systems and information, utilizing advanced authentication mechanisms, multi-factor authentication (MFA), and sophisticated identity verification technologies. We design and implement scalable access control systems that incorporate the latest in biometric verification, encryption, and secure token services, catering to enterprises looking to fortify their cybersecurity framework. Our solutions not only prevent unauthorized access but also streamline user management processes, making them more efficient and less susceptible to human error.

Service Features:

Advanced User Authentication:

Implements cutting-edge authentication protocols (biometrics, smart cards, OTPs) for secure, verified logins.

Multi-Factor Authentication (MFA):

Enhances security by requiring multiple verification forms, significantly reducing unauthorized access risk.

Dynamic Access Control:

Utilizes user roles and context-based controls to dynamically adjust permissions based on scenarios, location, and security posture.

Comprehensive Identity Management:

Provides a centralized platform for managing user identities (enrollment, updates, revocation), simplifying administration and enhancing security oversight.

Regular Security Audits and Compliance Monitoring:

Conducts periodic audits to ensure compliance with internal policies and regulatory standards, helping meet legal obligations and maintain high security.

What we do

SERVICE BENEFITS

- **Enhanced Security:** Strengthens defenses against data breaches by implementing stringent access controls, protecting sensitive data from unauthorized users.

- **Improved Compliance:** Helps empower your organization to stay ahead of technological trends and competitors by adopting advanced digital strategies.

- **Increased Operational Efficiency:** Optimizes processes management and digital workflows, significantly reducing costs and increasing productivity.

- **Scalability:** Adapts to changing organizational needs with flexible, customizable solutions that can accommodate growth and new security technologies.

- **User Satisfaction:** Offers users seamless and secure access to systems and applications, improving their experience and reducing their overall risk related to future changes.

SERVICE DELIVERY

- **Tailored Solution Design:** Customizes security solutions to align perfectly with the client's specific business requirements and infrastructure, ensuring comprehensive protection.

- **Systematic Implementation and Integration:** Carefully implements and integrates the systematic digital transformation roadmap within your organization's goals.

- **Ongoing Monitoring and Maintenance:** Provides continuous monitoring and regular updates to security measures to address threats and ensure optimal performance.

- **Comprehensive Training and Support:** Delivers extensive training sessions and change management to ensure successful adoption of new digital processes.

- **Audit and Compliance Assurance:** Conducts regular audits to assess security effectiveness and compliance with relevant laws and regulations.

DATA PARTNERS

We work alongside you to harness the full potential of your data ensuring it drives meaningful outcomes and business success.

citizen-facing public
services and a number
of private sector
customer facing
programmes.**

68 user-centred digital
services across 14
major clients.

350 people currently
deployed on client
projects.

50m UK citizens user
our solutions.

Our Digital Transformation for the UK Public Sector

Transforming pension experiences at the Department for Work and Pensions

Scrumconnect transformed pension experiences with our award-winning Get Your State Pension service for DWP. Serving 12 million UK citizens, we achieved an 80% digital adoption rate and over 95% satisfaction, managing £101 billion annually. Welcome to the new era of pension management.

Building the Ministry of Justice exemplar service

Scrumconnect pioneered one of the Ministry of Justice's earliest exemplar services, spearheading the adoption of a cloud-first approach and modernizing their organizational structure. Based in Manchester magistrates' court, our team developed a product aimed at minimizing unnecessary visits, driving efficiency and effectiveness.

Digital Transformation of HM Prison and Probation Service

Scrumconnect consultants are at the forefront of addressing major challenges within prisons and probation systems. With issues spanning across the board, timely access to pertinent data can be lifesaving for prison officers. Our consultants are dedicated to developing cutting-edge products and services tailored for a modern prison system, ensuring efficiency and effectiveness at every step.

Our Digital Transformation for the Private Sector

Expanding capacity and capabilities with speed at Cora

Cora aimed to expand its IT capacity for delivering more features to customers efficiently. Scrumconnect assembled a team of 30 FTEs, enabling experienced staff to focus on client engagement, yielding a 10x return on investment. Let's explore further opportunities to deepen our partnership.

eCommerce programme for international airline

We managed the development of three distinct E-Commerce solutions for a global airline undergoing extensive integration. Our responsibilities included overseeing site development, maintaining release schedules, sprint and release planning, and complete stakeholder management. We provided thorough reporting on deliverables and outcomes throughout the process.

Revolutionising the Bank of England's Cloud Migration: From Days to Minutes

In a groundbreaking initiative, Scrumconnect facilitated the seamless transition of the Bank of England to the cloud, slashing analysis time from 20 days to a mere 30 minutes. Our approach, which included secure landing zones, application on-boarding mechanisms, containerization, and extensive training, has not only streamlined operations but also laid the foundation for a resilient, forward-thinking cloud strategy.

We're guided by our values at all times

Collaboration

We believe that we are stronger as a team than as individuals. We create and solve problems together.

Early Value Creation

We find the quickest route from idea to product because that is where our business value is. Customers rely on us to impact their business and we always deliver.

Learning

The future belongs to those that can adapt fast. We do this by continuously learning, sharing and growing as individuals and as teams.

Integrity

Teamwork requires trust with everyone that we work with. We can always be relied upon to behave with the highest standards.

Commitment

No matter what, we always give our 100% to achieving our goals. Our focus and motivation is always the highest.
