

Scrumconnect

G-Cloud 15 Service description

Cloud Service Delivery, Performance, Enhancement and Operations Support

**At Scrumconnect, we deliver
user-centric digital solutions
that transform public services.**

**Our team of expert consultants
excels in full lifecycle
development, turning complex
challenges into actionable
results that drive real impact.**

Our mission is to make digital services and products easy to use for our clients and their customers, creating great user experiences for everyone.

What we do

Our **Cloud Service Delivery, Performance Enhancement, and Operations Support** offering provides a comprehensive suite of services designed to optimize cloud infrastructure performance and reliability. By integrating best practices in cloud architecture and system management, we enhance your cloud operations, improve service delivery, and ensure optimal performance across platforms.

This service includes performance tuning, proactive monitoring, real-time operational support, and strategic enhancements to infrastructure. Suitable for businesses of all sizes, our service aims to streamline cloud workflows, reduce downtime, increase efficiency, and improve overall system resilience, providing a stable and scalable cloud environment that supports dynamic business needs.

Proactive Performance Tuning

Regularly analyzes cloud infrastructure to identify performance bottlenecks and implement optimizations. This not only improves application response times but also enhances resource utilization, ensuring that cloud environments are running at their optimal capacity.

Real-Time Monitoring and Alerts

Utilizes advanced monitoring tools to continuously track the health and performance of cloud services. This system provides immediate alerts on potential issues, allowing for swift resolutions that minimize downtime and service disruptions.

Strategic Infrastructure Enhancements

Periodically reviews and upgrades cloud infrastructure to incorporate the latest technological advancements and best practices. This proactive approach not only future-proofs your environment but also improves scalability and operational efficiency.

Comprehensive Operations Support

Offers extensive support services, including incident management, problem resolution, and customer service. Our team ensures that all operational aspects are managed efficiently, reducing the burden on your internal resources.

Continuous Improvement and Optimization

Implements a continuous improvement plan that includes regular reviews, feedback incorporation, and system adjustments.

What we do

Service Benefits

Enhanced System Performance and Reliability

Optimizes cloud operations to improve performance metrics such as uptime, responsiveness, and processing speeds, thereby enhancing reliability and user satisfaction.

Reduced Operational Costs

By improving resource utilization and automating routine tasks, our service significantly reduces operational costs associated with cloud management and maintenance.

Increased Scalability and Flexibility

Upgrades and optimizations ensure that your cloud environment can scale effectively to meet demand without compromising performance or security, providing the flexibility needed to adapt to market changes.

Minimized Downtime and Service Disruptions

Through proactive monitoring and rapid incident response, we significantly decrease the frequency and impact of downtime and other service disruptions.

Continuous Compliance and Security

Maintains high standards for security and compliance with regulatory requirement.

Service Delivery

Tailored Infrastructure Management

Configures and manages your cloud infrastructure according to best practices tailored to your specific operational needs and business goals.

Dedicated Monitoring and Incident Response

Establishes a dedicated team to monitor cloud performance continuously and manage incidents promptly to ensure swift resolution of issues.

Strategic Enhancements Implementation

Periodically implements strategic enhancements to the cloud architecture to improve performance, incorporate new technologies, and align with evolving business strategies.

Routine Performance Assessments

Conducts routine performance assessments to identify inefficiencies and areas for improvement, followed by targeted optimizations to enhance service delivery.

Operational Support and Training

Provides comprehensive operational support and training to your staff, enhancing their capabilities to manage and optimize cloud environments effectively.

DATA PARTNERS

We work alongside you to harness the full potential of your data ensuring it drives meaningful outcomes and business success.

Data Engineering

Data Operations

Data Science and AI

Data Analytics and Insights

DESIGN PARTNERS

We understand the unique challenges you face in delivering exceptional design and research. We've been there and done it and delivered positive impact.

Service Design

Interaction / UX Design

User Research

Content Design

Design Strategy

Design Leadership

TECHNOLOGY PARTNERS

We partner with you to harness the latest technologies ensuring your systems are efficient, scalable and future-proof.

Software engineering

Cloud and architecture

Service management

Legacy code modernisation

Automation

Artificial intelligence

STRATEGY PARTNERS

We collaborate with you to create and implement strategies that ensure sustainable growth and competitive advantage.

Product strategy

Data strategy

Technology strategy

UCD strategy

Digital strategy

Why us?

Track record

Experienced delivery partner for private and public sector clients.

UK Govt trusted partner

We've been working in the UK Public Sector for 10 years.

Cross-sector delivery experience

DWP, MoJ, HMPO, DfE, GDS, SITA, Cora, Bank of England and ASOS.

Value for money

Clear vision for improvement, TCO benefits, competitive rates & experienced team.

Hand picked team

10+ years experience of picking bespoke digital teams to meet customer demands.

Delivery mindset

Delivered 40+ projects over Discovery, Alpha, Beta and Live.

Quality

Meeting user needs as default.

Standards

Adherence to GDS and Industry SDLC and Designs, tech community participation. Certified to Cyber Essentials Plus, ISO 9001/27001.

**Delivering over 20% of
the top 75 UK
citizen-facing public
services and a number
of private sector
customer facing
programmes.**

**68 user-centred digital
services across 14
major clients.**

**350 people currently
deployed on client
projects.**

**50m UK citizens user
our solutions.**

Our Digital Transformation for the UK Public Sector

Transforming pension experiences at the Department for Work and Pensions

Scrumconnect transformed pension experiences with our award-winning Get Your State Pension service for DWP. Serving 12 million UK citizens, we achieved an 80% digital adoption rate and over 95% satisfaction, managing £101 billion annually. Welcome to the new era of pension management.

Building the Ministry of Justice exemplar service

Scrumconnect pioneered one of the Ministry of Justice's earliest exemplar services, spearheading the adoption of a cloud-first approach and modernizing their organizational structure. Based in Manchester magistrates' court, our team developed a product aimed at minimizing unnecessary visits, driving efficiency and effectiveness.

Digital Transformation of HM Prison and Probation Service

Scrumconnect consultants are at the forefront of addressing major challenges within prisons and probation systems. With issues spanning across the board, timely access to pertinent data can be lifesaving for prison officers. Our consultants are dedicated to developing cutting-edge products and services tailored for a modern prison system, ensuring efficiency and effectiveness at every step.

Our Digital Transformation for the Private Sector

Expanding capacity and capabilities with speed at Cora

Cora aimed to expand its IT capacity for delivering more features to customers efficiently. Scrumconnect assembled a team of 30 FTEs, enabling experienced staff to focus on client engagement, yielding a 10x return on investment. Let's explore further opportunities to deepen our partnership.

eCommerce programme for international airline

We managed the development of three distinct E-Commerce solutions for a global airline undergoing extensive integration. Our responsibilities included overseeing site development, maintaining release schedules, sprint and release planning, and complete stakeholder management. We provided thorough reporting on deliverables and outcomes throughout the process.

Revolutionising the Bank of England's Cloud Migration: From Days to Minutes

In a groundbreaking initiative, Scrumconnect facilitated the seamless transition of the Bank of England to the cloud, slashing analysis time from 20 days to a mere 30 minutes. Our approach, which included secure landing zones, application on-boarding mechanisms, containerization, and extensive training, has not only streamlined operations but also laid the foundation for a resilient, forward-thinking cloud strategy.

We're guided by our values at all times

Collaboration

We believe that we are stronger as a team than as individuals. We create and solve problems together.

Early Value Creation

We find the quickest route from idea to product because that is where our business value is. Customers rely on us to impact their business and we always deliver.

Learning

The future belongs to those that can adapt fast. We do this by continuously learning, sharing and growing as individuals and as teams.

Integrity

Teamwork requires trust with everyone that we work with. We can always be relied upon to behave with the highest standards.

Commitment

No matter what, we always give our 100% to achieving our goals. Our focus and motivation is always the highest.
