

Scrumconnect G-Cloud 15 Service description

Application Managed service

**At Scrumconnect, we deliver
user-centric digital solutions
that transform public services.**

**Our team of expert consultants
excels in full lifecycle
development, turning complex
challenges into actionable
results that drive real impact.**

Our mission is to make digital services and products easy to use for our clients and their customers, creating great user experiences for everyone.

What we do

Scrumconnect provides Application Managed Services (AMS) provide comprehensive management and optimization of business applications, focusing on enhancing performance, reliability, and security. Delivered by specialized teams using advanced cloud-based platforms, AMS ensures operational excellence through dedicated support and strategic insights. The service includes 24/7 monitoring, proactive maintenance, scalability solutions, and compliance management, all tailored to meet specific business needs

Service Features:

24/7 Monitoring and Incident Management:

Real-time application monitoring and rapid incident response to maintain high uptime.

Security and Compliance Management:

Continuous security assessments and security assessments and compliance management to meet regulatory standards.

Consultative Support and Analytics:

Strategic consulting, custom analytics, and reporting to align technology with business objectives.

Maintenance and Performance

Optimization: Regular updates, preventive maintenance, and performance tuning to ensure efficient application operation.

Scalability and Integration: Resource management and scalability solutions along with seamless integration services.

Lifecycle and Quality Assurance:

Complete lifecycle management from version control to end-of-life support, and rigorous quality testing.

What we do

Service Benefits:

Our Application managed services offer the following benefits:

Expertise and Specialization: Access to specialized knowledge allows businesses to focus on core competencies while ensuring optimal application performance.

Cost Efficiency: Transitioning to an operational expenditure model reduces infrastructure costs and allows for predictable budgeting.

Improved Uptime and Performance: Ensures high availability and peak application performance through proactive support and maintenance.

Scalability and Security: Flexible resource scaling and robust security measures protect against vulnerabilities and ensure compliance.

Innovation and Strategic Advantages: Continuous updates and access to the latest technologies support innovation and maintain technological relevance.

Service Delivery:

Our Automation and DevOps services are delivered using the following process:

Dedicated Teams: Specialised teams provide ongoing management, support, optimization specific to the client's needs.

Cloud-Based Platforms: Utilization of cloud infrastructures for scalable, flexible, and secure application hosting and management.

Service-Level Agreements (SLAs): Defined SLAs ensure performance metrics, uptime, quality standards are consistently met.

Advanced Toolsets: Integration of cutting-edge monitoring, automation, and management tools to maintain and enhance application performance.

Regular Consultations and Reporting: Continuous engagement through strategic reviews, performance reporting, and consultative meetings to align services with business goals.

services across 14
major clients.**

**350 people currently
deployed on client
projects.**

**50m UK citizens user
our solutions.**

Our Digital Transformation for the UK Public Sector

Transforming pension experiences at the Department for Work and Pensions

Scrumconnect transformed pension experiences with our award-winning Get Your State Pension service for DWP. Serving 12 million UK citizens, we achieved an 80% digital adoption rate and over 95% satisfaction, managing £101 billion annually. Welcome to the new era of pension management.

Building the Ministry of Justice exemplar service

Scrumconnect pioneered one of the Ministry of Justice's earliest exemplar services, spearheading the adoption of a cloud-first approach and modernizing their organizational structure. Based in Manchester magistrates' court, our team developed a product aimed at minimizing unnecessary visits, driving efficiency and effectiveness.

Digital Transformation of HM Prison and Probation Service

Scrumconnect consultants are at the forefront of addressing major challenges within prisons and probation systems. With issues spanning across the board, timely access to pertinent data can be lifesaving for prison officers. Our consultants are dedicated to developing cutting-edge products and services tailored for a modern prison system, ensuring efficiency and effectiveness at every step.

Our Digital Transformation for the Private Sector

Expanding capacity and capabilities with speed at Cora

Cora aimed to expand its IT capacity for delivering more features to customers efficiently. Scrumconnect assembled a team of 30 FTEs, enabling experienced staff to focus on client engagement, yielding a 10x return on investment. Let's explore further opportunities to deepen our partnership.

eCommerce programme for international airline

We managed the development of three distinct E-Commerce solutions for a global airline undergoing extensive integration. Our responsibilities included overseeing site development, maintaining release schedules, sprint and release planning, and complete stakeholder management. We provided thorough reporting on deliverables and outcomes throughout the process.

Revolutionising the Bank of England's Cloud Migration: From Days to Minutes

In a groundbreaking initiative, Scrumconnect facilitated the seamless transition of the Bank of England to the cloud, slashing analysis time from 20 days to a mere 30 minutes. Our approach, which included secure landing zones, application on-boarding mechanisms, containerization, and extensive training, has not only streamlined operations but also laid the foundation for a resilient, forward-thinking cloud strategy.

We're guided by our values at all times

Collaboration

We believe that we are stronger as a team than as individuals. We create and solve problems together.

Early Value Creation

We find the quickest route from idea to product because that is where our business value is. Customers rely on us to impact their business and we always deliver.

Learning

The future belongs to those that can adapt fast. We do this by continuously learning, sharing and growing as individuals and as teams.

Integrity

Teamwork requires trust with everyone that we work with. We can always be relied upon to behave with the highest standards.

Commitment

No matter what, we always give our 100% to achieving our goals. Our focus and motivation is always the highest.
